

Diatomaceous Earth for Gardening - Benefits & How to Use It

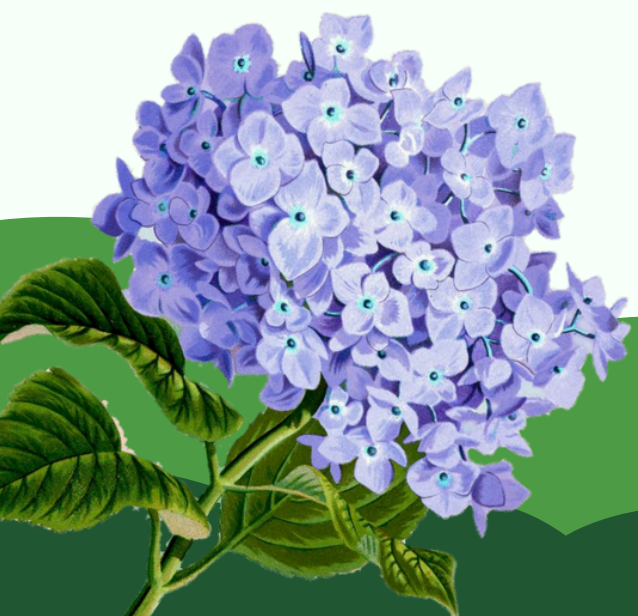

Keeps pests away,
including slugs, aphids, and ants.

**Helps prevent fungal
diseases
like powdery mildew.**

**Improves soil quality,
enhancing aeration and moisture
retention.**

Natural and safe,
won't harm plants or soil.

Easy to apply

- sprinkle by hand or use a sifter for even coverage.

Important! Reapply after rain,
as moisture reduces its effectiveness.
